Announcing A New Concept in Getting Withholding Taxes Right, THE FIRST TIME.

Scottsdale, AZ (May 20, 2009) Payroll & HR professionals know the frustration in setting up new employees. It is nearly impossible to get an employee's taxes right the first time. There has never been an easy way to pinpoint the proper withholding taxes....until now. Finally, **Payroll-Point.com** is here.

Payroll-Point.com includes:

- **Address Based Tax Lookup** – With our FREE **Payroll-Point Lite**, enter an address (home or work) for the employee to see the list of appropriate taxes.
- **Multi-State/Reciprocity Support** – With **Payroll-Point Pro**, enter a home and work address, and the proper taxes are listed for both employee and employer. View the type of tax and applicable rates, factor reciprocity between states and nexus settings into the decision. Pro versions are private-labeled - perfect for onboarding and corporate HR and Payroll functions.
- **Local Jurisdiction Functionality** – Symmetry has monitored and updated local jurisdiction tax rates, with thousands of combinations included.
- **GoogleMaps Integration** – We use world-class mapping technology to ensure pinpoint accuracy.
- **Integrate Payroll-Point data into your Payroll system.** Using XML technology, pre-fill Payroll-Point with the Employee's information, view and transmit results back to your Payroll/HR system.
- **Refresh your Current Employee database** – Avoid an audit surprise! Payroll-Point processes current employee data to provide the proper tax settings, so you can confirm employee database information.
